PROFESSIONAL SUMMARY

SOC Analyst with 9 months of hands-on cybersecurity experience in SIEM monitoring, alert triage, log analysis, incident response, threat hunting, and phishing investigation. Experienced in Splunk SIEM, Windows Event Logs, Sysmon, MITRE ATT&CK, IOC analysis, and security monitoring. Skilled in investigating security alerts, analyzing suspicious activity, and supporting incident response activities through structured SOC workflows. Hands-on experience with phishing email analysis, vulnerability assessment, and developing detection use cases in a Splunk-based Home SOC Lab. CEH Certified with strong knowledge of security operations and threat detection.

TECHNICAL SKILLS

SOC Operations | SIEM Monitoring (Splunk) | Log Analysis | Incident Response | Alert Investigation | Threat Hunting & Monitoring | Vulnerability Assessment & Security Testing
MITRE ATT&CK | IDS/IPS | Windows Event Forwarding (WEF) | Phishing Analysis | IOC Analysis | Email Security | Security Monitoring | Linux | Network Security / TCP-IP
Web Application Security (SQL Injection, XSS, Command Injection) | Vulnerability Assessment | Security Report Writing

TOOLS & TECHNOLOGIES

Splunk SIEM | Wazuh | Nmap | Metasploit | Burp Suite | Wireshark | Sysmon | VirusTotal | URLScan | AbuseIPDB | OWASP ZAP | Kali Linux

WORK EXPERIENCE

Cyber Security Trainee | Gatewaypark Business Pvt Ltd, Bengaluru Nov 2025 – May 2026

- Monitored and triaged 50+ daily security alerts using Splunk SIEM; escalated critical incidents per SOC runbooks, reducing response time by 20%.
- Conducted log analysis across network and endpoint sources; identified and documented 15+ security events using structured IR procedures.
- Performed VAPT on 10+ internal systems using Nmap, Metasploit, and Burp Suite; reported critical vulnerabilities with remediation steps — 100% SLA closure.
- Applied MITRE ATT&CK for threat hunting; built IR playbooks covering brute force, lateral movement, and web application attack scenarios.

Cyber Security Intern | Razz Security, Bengaluru Jun 2025 – Oct 2025

- Assisted in monitoring and triaging security alerts using SIEM tools; investigated suspicious activity logs and escalated potential incidents following SOC runbook procedures.
- Performed vulnerability assessments on 5+ web applications; reduced attack surface through actionable, risk-rated remediation guidance.
- Authored 10+ security reports summarising findings and remediation steps; recognised for documentation clarity and quality.

PROJECTS

Home SOC Lab (Splunk)

- Deployed Splunk Enterprise locally; ingested Windows Security, System, and Application event logs via Windows Event Forwarding (WEF).
- Investigated authentication events (Event ID 4624 & 4625) and built SPL-based detection use cases:
- Auth Monitoring** — `index=wineventlog EventCode=4624 | stats count by Account_Name, host`
- Failed Logins** — `index=wineventlog EventCode=4625 | stats count by Account_Name | where count>5`
- Brute-Force** — `index=wineventlog EventCode=4625 | bucket _time span=5m | stats count by _time, src_ip | where count>10`
- Created dashboards, correlation searches, and security alerts for authentication monitoring, brute-force detection, and threat hunting; integrated Sysmon for enhanced endpoint visibility.

Log Monitoring & IR Playbooks

- Designed log monitoring workflows and IR playbooks covering 8 attack scenarios aligned with NIST and SOC best practices.

Splunk SIEM Threat Detection

- Reproduced SIEM alert correlation use cases; improved detection for 5 attack patterns including brute force and lateral movement.

Phishing Email Analysis & Investigation

- Analyzed phishing emails using header analysis, SPF, DKIM, and DMARC validation to identify spoofed senders and malicious infrastructure.
- Investigated malicious URLs and attachments using VirusTotal, URLScan, AbuseIPDB, and WHOIS; extracted and documented IOCs.
- Created investigation reports aligned with SOC workflows, including incident response recommendations and alert investigation findings.

CERTIFICATIONS

CEH – Certified Ethical Hacker (EC-Council) | Cyber Security Certification
